IT'S TAX HIKE TIME IN LANSING CORRAL

Branding Irons Are Red Hot

Legislators
Eye Many
New Levies

LANSING (AP)—Any taxpayer who is struggling to meet next month's deadline for paying his federal income tax should avoid the Michigan Legislature this week; there is little consolation in the business at hand.

Topping the agendas of both chambers are a variety of revenue bills that would raise between \$400 million and \$500 million in new state taxes.

The biggest tax bill has been passed in the House by Rep. Roy Spencer, R-Attica. Estimated at more than \$400 million, Spencer's bill would allocate some \$271 million to the State School Aid Fund to help pay the difference between Gov. William G. Milliken's proposed \$849-million school aid level and the \$122-billion that the House passed last week.

Under Spencer's plan, the state personal income tax rate would be increased from 2.8 per cent to 3.5 per cent, the corporate rate would go from 5.6 per cent to 7.7 per cent, and banks would be taxed at 7.7 per cent instead of the present 7-per-cent rate.

LOCAL INCOME TAXES

In addition, local school districts would be authorized to levy income taxes—up to 2 per cent in districts with 10-mill property taxes, no more than 1 per cent in 10-15 mill districts.

The object and return benefit, Spencer says, would be to bring local property taxes down from the statewide average of 24 mills.

Addressed to "the great white father and all his people," the proclamation said: "In the name of all Indians, we reclaim this land for all Indian tribes."

Col. Stuart Palos, Ft. Lawton commander, said Miss Fonda's lawyer was given a "letter of expulsion" banning her from the post after she took part in the demonstration.

About 72 persons, including women and children, were held briefly at the post stockade for (See back page, sec. 1, col. 1)

MEET A BADGER: Looking for a way to escape temporary pen, full-grown badger crouches on wood pallet. He was caught in a trap set for fox by Alan Barchett, 15, of rural Watervliet. Badgers are rare in this part of state. Michigan is eastern edge of their range in North America. Compact, mus-

cular animals live in burrows and feed at night on gophers, mice, other small animals and vegetation. They are of a mammal family intermediate between bears and weasels. This fellow weighs about 25 pounds. (Ralph Gordon photos)

Army Beats Back Attack By Indians

Jane Fonda Among Arrested

SEATTLE (AP)—The Army has repelled a band of Indians who attempted to take over part of a fort, arresting actress Jane Fonda and about 85 other persons in the process.

After the day-long demonstration Sunday eight Indians said they had been beaten and clubbed by military police in a cell at the Ft. Lawton stockade here.

Miss Fonda and 13 other persons were seized by MPs at Ft. Lewis, about 35 miles south of here, after a larger group was unsuccessful in efforts to occupy a section of 1,100-acre Ft. Law-

ton, part of which is scheduled to be made surplus by the Army and may become a park.

TEEPY SET UP

The Indians, numbering approximately 160, were met by the 392nd Military Police Co. on their second attempt to enter Ft. Lawton. The group, which called itself the "United American Indian Ft. Lawton Occupational Force," climbed over fences, and scaled a high bluff and set up a teepee.

The Indians, some carrying sleeping bags and food, read a proclamation demanding that an "Indian university," and cul-

tural center be developed on the fort.

Addressed to "the great white father and all his people," the proclamation said: "In the name of all Indians, we reclaim this land for all Indian tribes."

Col. Stuart Palos, Ft. Lawton commander, said Miss Fonda's lawyer was given a "letter of expulsion" banning her from the post after she took part in the demonstration.

About 72 persons, including women and children, were held briefly at the post stockade for (See back page, sec. 1, col. 1)

50 CENTS A PACK?

Counter and vending machine prices probably would rise above their present price range of 36 to 45 cents a pack, but the vending machine price could go above 50 cents a pack if operators chose to pass on to consumers the cost of changing the machines as well.

Other measures in line for Senate action include one proposal to return Michigan to Daylight Savings Time by a constitutional amendment and another to jail anyone refusing an order to leave a state-owned college campus. That bill passed the House by a solid majority in late January, but a special report prepared for a special Senate study committee concluded no new laws are needed to deal with student unrest on campus.

The House later this week may debate Speaker William A. Ryan's request for a change in the chamber's rules on expenses by committees and members.

After several controversial trips by legislators to Puerto Rico, California and Florida between Thanksgiving and the start of the year, Ryan wants the power to approve or reject any travel or operating expenses other than what committees might spend from a standard, \$1,000-a-year budget.

The biggest issue, however, remains the huge school aid package that the House has submitted for what Milliken proposed and the Senate passed (See back page, sec. 1, col. 2)

Onion Sets, Seeds, Schreiber's, Adv.

RARE FACE: Badger looks you in the eye in this closeup view. Black and white stripes mask his gray-furred face. Heavy claws are two inches long. Alan Barchett's father, Robert, and his uncle released badger from trap, pinned it for photographer Friday and then released it. More photos on back page, this section.

Lenore Proves She Has Claws

GOP Senate Candidate Tears Into Hart

By BOB VOGES

LANSING (AP)—It will add some spice and excitement to the Michigan political scene to have a Romney campaigning again—and you can expect to see two of them touring the state.

This time the candidate is the ladylike Lenore, not the blunt-spoken George.

But the lady proved she has sharp claws as she tore into Sen. Philip A. Hart, the Democratic incumbent, minutes after she was nominated as the Republican party's "preferred" candidate to oppose the two-term senator.

"Sen. Hart was part of the old Soapy Williams crowd that ran Michigan into the ground back in the 50s," she told a group of cheering GOP leaders Saturday in Lansing.

Mrs. Romney proved she had done her homework well as she dissected Hart's voting record.

"He was a hawk when it was popular to be a hawk, and a dove when it was popular to be a dove," she accused.

Hart, she said, "is the acknowledged leader of the professional automatic liberals in the Senate."

The Republicans loved her acid tongue. Whipped into line

by Gov. William Milliken and state GOP Chairman William McLaughlin, they named Lenore the consensus candidate with 278 votes approving and only 25 dissenting — a nearly 92 per cent endorsement.

The largest opposition block of 13 votes came from the prosperous Grosse Pointe area 14th District outside Detroit, where conservative Richard Durant is district chairman.

CLOSE TO HOME

Surprisingly enough, there was also one vote against Mrs. Romney from her own home district, which includes Bloomfield Hills.

There was a sincere outpouring of support for the former first lady of Michigan. There were catchy slogans such as, "Lenore's a Hartbreaker."

"Lead on Lenore" and "We will score with Lenore."

Husband George, can be expected to take time out from his duties as U.S. secretary of housing and urban development to campaign for his wife.

Those who know the former governor anticipate he will go after Hart with a verbal ax rather than the rapier used by his wife.

"I won't clear his speeches, Lenore promised. "That means George will be finger-pointing and table-thumping as he hits the political trail again."

DEMOCRATIC ATTACK

Democrats were quick to point out that Mrs. Romney never has held political office.

"Mrs. Romney is a lovely lady, a mother and a grandmother, but she has not held a single party or elected position in her own right," criticized Democratic chairman James McNeely. He charged Mrs. Romney "is a candidate solely on her husband's name" and "one man (Romney) has chosen the Republican party's nominee for the Senate."

"Knowing government by osmosis is hardly a qualification for office," McNeely said.

Mrs. Romney had anticipated this criticism of her qualifications.

"I campaigned for principles (See back page, sec. 1, col. 3)

INDIANS LOSE BATTLE: An Indian girl struggles with military police Sunday as they attempt to remove her from Ft. Lawton, a military post in Seattle soon to be declared surplus. The Indians were attempting to claim the fort as an Indian university. Eighty-five persons, including actress Jane Fonda, were arrested during the disturbance at Ft. Lawton and at Ft. Lewis, 35 miles south of Seattle. (AP Wirephoto)

Andrews University Fund Hits \$800,000

BERRIEN SPRINGS — The Andrews university fund campaign for buildings has pushed well past the three quarters mark in a new total of \$800,000, according to an announcement made today by Robert C. Upton, general chairman.

Upton said that \$81,000 in new pledges had been received during the past two-week period. He said local solicitation is now entering its final phase and that additional support is anticipated from parent companies of local firms and certain university suppliers.

Dr. Richard Hammill, president of the university, praised the work of the campaign

organization and expressed his appreciation for their efforts.

"Any satisfaction we might

O'Brien To The Rescue

The full Democratic national committee is expected to adopt last week's decision by its executive committee to recall Lawrence Francis O'Brien as national chairman.

Making allowance for the peril in predicting what one politician will do, much less a group of 50 or more, O'Brien's confirmation should be a routine matter.

He is the only man in sight who can pull together a party which almost prides itself as being one of permanent internal crisis.

Back in 1892, Thomas B. Reed, the Republican czar in the House of Representatives, described his opposition as "a hopeless assortment of discordant differences, as incapable of positive action as it is capable of infinite clamor."

Drafting O'Brien is a frank admission by the Democratic chieftains that knowledgeable leadership is the key to the locker.

The GOP turned to Ray Bliss, an insurance salesman turned political mastermind in Ohio, to rebuild its shattered ranks and fortunes following the Goldwater debacle of '64.

Since the Democrats start off with a numerically larger number of adherents out in the countryside, O'Brien should have

A Perfect Solution

At least three paper manufacturing plants in the United States now are converting used newsprint into new paper, and are succeeding economically where others who tried various processes in the past failed.

Nor are the latest ventures in reprocessing newsprint small in scope. Some 365,000 tons of old newspapers were converted into 320,000 tons of fresh newsprint last year and the value of the new product was \$45 million.

Salvaging old newsprint has a number of advantages, particularly in an era when disposal of solid wastes has become a major concern. Reusing hundreds of thousands of tons of newsprint recycles back into the economic mainstream that much refuse instead of burying it in the ground.

It also means a new and valuable source of paper has been found which will conserve timber resources. The recycled newsprint is cheaper than that made from virgin pulp, selling for about \$7 a ton less.

The venture has been accomplished through free enterprise, without a dollar in government subsidy. Even the collection of used newspapers for the conversion plants benefited various charitable organizations to the tune of about \$9 million last year.

This is solving the pollution problem in a manner which benefits not only an industry, but the entire community.

It Wasn't His Day

Those who are convinced the outlook is as dark as it can get should take a glance at the state of Pedro Monarez Flores of Mexico City.

Things were going good for Flores and he had \$1,400 in receipts stuffed in his shirt-pocket, when it happened. Fire broke out in his egg shop and leveled the business.

Flores tried to fight the flames with the shirt which he quickly ripped off his back and it went up in smoke, too. In the excitement, he forgot about the money in the pocket.

an easier task than Bliss had to wrestle down.

He declined the first offer from the executive committee saying that he could not accomplish anything unless all elements within the party submerging their personal differences to work in march time step. He referred specifically to some liberal leaders as the object of that assessment.

Although Hubert Humphrey, the party's titular head, quickly assured the country that the committee would shortly find a suitable replacement, it is interesting to note that the executive committee went through a cursory talent search. Last week's meeting made it a point to give O'Brien a voluntary unanimous vote of confidence.

He replaces Sen. Fred R. Harris, an Oklahoma liberal, who may find trouble in getting re-elected this year.

Harris took the assignment following Humphrey's nomination and for the ensuing year and one-half has experienced nothing but criticism and unrewarding results.

O'Brien faces two immediate problems.

One is to bring some money into the till for this year's Congressional elections and, if possible, to whittle down or liquidate the \$8 million debt from the '68 Presidential campaign.

The second is to find a figure capable of matching the Nixon-Agnew symbolism which for the present enjoys widespread popular support.

The Chappaquiddick bridge temporarily dropped Teddy Kennedy out of the running.

Senator Muskie from Maine gives off an aura of indecisiveness.

Senator McGovern from South Dakota leaves a flibberty glibbet impression.

Humphrey exudes the elder statesman's atmosphere which leaves younger people cold.

O'Brien's job is to find the positive answer through eliminating those negative choices.

His third assignment is readymade. It only requires playing his cards properly.

This is the rocketbook issue.

Inflation remains warm as the economy slows down.

Though all of us are taught from childhood that one can not have his cake and eat it, none of us really like to accept the fact.

The Washington mystique for two generations has conditioned us to reject the proverb and if winter's dullness does not yield to a springtime sheen, O'Brien will make the most of this weapon.

Repairing a large machine, mechanical or political, is not a one-man job, but a savvy engineer has to guide the process.

Recalling O'Brien fits that requirement in all respects.

Toys Mirror Young

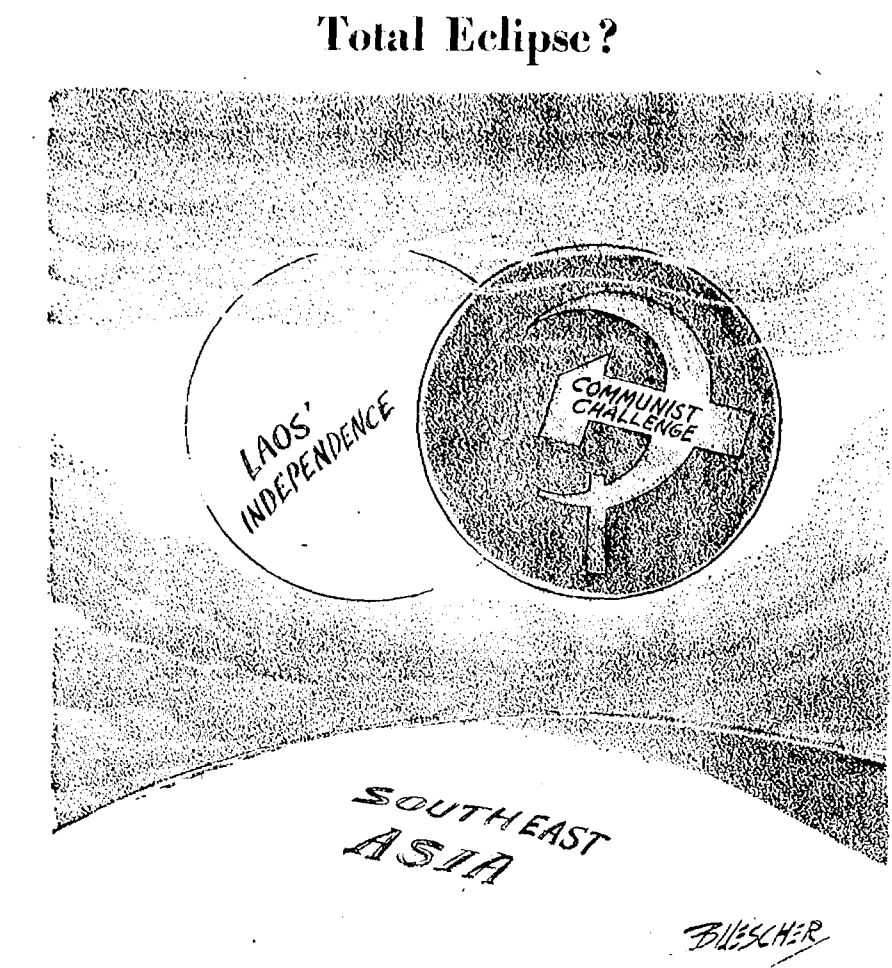

The toy industry in the United States is more than a \$2 billion-a-year business. It is a remarkable reflection of the attitudes and interests of the younger members of the community. Whether it is the parent who selects the toy for the child, or the child who beguiles the parent into making the purchase, the toy isn't used unless it meets the child's discerning tastes.

Toy manufacturers are careful to keep attuned to their market, so changing toy tastes indicate something of a commentary on the interests of the young. Mom and Dad might be surprised if they saw what the 850 toy manufacturers are offering this season, as revealed at the 67th annual Toy Fair in New York.

Gone is the emphasis on dolls, guns, cowboy regalia and the other one-time favorites of the parent generation. The big thing this year is magic, in all its forms. Astrology, the Zodiac, witchcraft and the supernatural all come in for their share of attention.

A new theme has appeared on the toy scene for the first time this year, pollution, land conservation and beautification of the cities. Games which reward the players according to their anti-pollution efforts were predicted as the coming fad for the decade of the '70s by one major manufacturer.

This all sounds a bit more complicated than the favorites of a generation ago, but that is the name of the modern game for children of all ages.

GLANCING BACKWARDS

LIKED KIDS: LEAVES \$100,000 TO SCOUTS
—1 Year Ago—
A Chicago bachelor who "liked kids" has left an estate valued at more than \$100,000 to Boy Scouts of Southwestern Michigan.

In a will made in 1956 and filed with Berrien Probate Judge Ronald Lange this week, Mr. Urban Lucas Stucker of

Glendora road, Buchanan, gave to Southwestern Michigan Council No. 258 all of his \$151,400 estate, except for some personal possessions to friends, the Buchanan public library and the Ford Museum in Dearborn.

YOUTH FAIR BUILDING BEE
—10 Years Ago—
The date was tentatively set

at a meeting of the Berrien County Youth Fair board for a building bee to erect a new exhibit hall and entry office building.

Plans for the building were laid after the board accepted a bid of \$2,430 for the lumber and nails for the 34 by 160 foot structure. Successful bidder was the Eau Claire Lumber Co., lowest among four bidders. Bids for metal roofing are to be opened later.

YANKS MAKE HISTORY IN BRIDGEHEAD COUP
—25 Years Ago—
Long columns of Americans were ploughing across the Rhine today — across to stay because the Germans blundered and gave up one of the least costly but yet one of the most important bridgeheads in military history.

The Yanks grimly jogged into the bridgehead, despite the sporadic, menacing German artillery.

CLUB MEETS
—25 Years Ago—
Twin city members of the St. Joseph Valley Writers club were guests of J. Lawrence Reeves of Michigan avenue. Verse and stories were read by Katherine Dyer, Mrs. William Ray Melton, Mr. Reeves, Grace Stanford and Thomas Adkins.

ROUNDUP
—15 Years Ago—
Sheriff Fred C. Franz announces that his deputies will begin the roundup of some 6,000 Berrien motorists who do not have their 1925 auto license plates.

MARINE PARK
—55 Years Ago—
The development of the marine park, near the windmill is being projected for St. Joseph. Officials of the St. Joseph River Yacht club and twin city officials are supporting the plan. One of the primary aims is to develop a spot where the Naval Reserves can acquire experience in ship handling.

ANNUAL MEETING
—70 Years Ago—
At the annual meeting of the Congregational church, the board of trustees and deacons were reelected for the ensuing year. Lincoln Heatt was elected treasurer. In the evening a nice banquet was served at the church, followed by an enjoyable social.

WILLIAM RITT
You're Telling Me!

Every backyard gardener worthy of the name should pause today in her or his thumbing of the 1970 seed catalogs to pay tribute to the greatest American plant breeder of all time — Luther Burbank. Because this is his birth date — March 7, 1849.

Starting with a better potato, Burbank developed new and better plums, prunes, berries, apples, tomatoes, corn, asparagus, peas, etc. That's quite a mouthful of goodies!

He also developed many varieties of fairer flowers. One word best describes Luther's lifework: — "Beautiful!"

The all-time record for a one day's snowfall is 76 inches which fell on a Colorado town in 1821 — Factographs. Wonder who dug up that cold fact?

It's not true that all clock-watches are just naturally lazy. How about watch repair-ers

EDITOR'S MAILBAG

NO POLICE PROTECTION
Editor, The Herald-Press.
I'd like to know just what it takes to get help in the Twin Cities for a girl in trouble.

Last night (March 4) while coming back from Benton Harbor, I ran out of gas between the bridges. Knowing that it would be unsafe to flag down a car, I decided to go to the sheriff's department hoping to receive some help.

After knocking at the door for five minutes, a guard finally let me in and offered me the phone. Not help, just a phone! After making several calls and having no success, I stated that I'd walk but explained my fears.

Even though I was afraid the kind gentleman never once

suggested that a police officer could take me to get gas. So I left wondering just what's missing in police protection!

I thought to myself that the sheriff's department would be the smartest and safest place to go, knowing how unsafe it is for a young girl to be walking the streets alone at night.

It just seems to me that our police protection isn't what it's made out to be. That's really a shame. I'm really wondering where we can go for help and protection knowing that you can't get it at the Berrien county sheriff's department.

Maybe this doesn't happen everyday but the point is it happened. That's all it takes to blow an image. Just once!

Sincerely,
LINDA SLAWSON,
1014 Court St.,
St. Joseph.

Today's Grab Bag

THE ANSWER QUICK!
1. What Spanish explorer conquered Mexico?
2. What Philadelphia banker was important for the financial aid he gave the Revolutionary War cause?
3. Who was the first chief justice of the United States?
4. Who sought the Fountain of Youth?
5. What noble houses figured in the "Wars of the Roses"?

IT HAPPENED TODAY
On this day in 1862 the iron-clad "Monitor" defeated the "Merrimack" in a Civil War engagement.

IT'S BEEN SAID
No pleasure is comparable to the standing upon the vantage ground of truth.—Bacon.

WATCH YOUR LANGUAGE
DYNAMISM — (DIE-N-MIZ-em) — noun; any of various doctrines or philosophical systems which seem to explain phenomena of nature by the action of force.

BORN TODAY
Andre Courreges, the controversial designer, has had the most influence on clothes since the "New Look" of Christian Dior. Courreges is a former engineer who has found fashions the most effective way to formulate his ideas.

For several seasons Courreges refused to show his styles because pirating in a nufactors distorted his ideas. He finally established an organization that would enable him to exert control over copies of his designs.

His revolutionary styles for the "moon age" are aimed at

youthful women who live at a fast pace and dislike pretentiousness.

He was born in 1923 at Pau, France, in the Basque Pyrenees. His father, a head butler in a wealthy British home, was "suspicious of artistic professions," according to young Courreges.

He had wanted to become an artist, but gave in to his father's wish that he become an engineer.

In 1948, at the age of 25, he went to Paris to work in a small fashion house. Eight months later, he joined the house of Cristobal Balenciaga, the fashion designer, as a presser for \$25 a month.

Courreges made his debut into haute couture with a collection that reflected the influence of Balenciaga. Not until his winter collection for the 1963-4 season did he come into his own. His now famous pants were previewed at a showing that received critical acclaim.

A critic labeled him the "Picasso of the Paris couture" for his trouser suits and skirts above the knee and his use of color. The boldness and simplicity of his designs — with their precise cutting — made copying easy and variations of his line were seen in every price range.

Courreges, after a semi-retirement, has returned to run his own show.

Others born today include Bobby Fischer, Eddie Foy and Amerigo Vespaeci.

YOUR FUTURE

DR. COLEMAN

..And Speaking Of Your Health

Can an attack of peritonitis during childhood be responsible for intestinal complaints later in life?

Mr. U. R., Delaware
Dear Mr. R.: Peritonitis is an infection of the thin, delicate lining of the entire abdominal cavity. This lining, known as the peritoneum, also covers the major organs in the abdomen.

An infection of the peritoneum, or peritonitis, was once considered a very severe illness and was a dread complication of a diseased appendix or gall bladder. With the advent of the antibiotics, inflammation of the peritoneum was controlled to a greater degree but it is still treated with great respect and intensive care.

The germs, or bacteria, that infect this cavity can enter it in many different ways and set up severe inflammation of this protective lining. When an abscess forms within the abdomen, surgery is imperative.

One of the complications of peritonitis is the formation of bands of adhesions which may, in some cases, bind down small portions of the intestines and be responsible for complaints later in life. Since adhesions do not themselves grow, the complications of peritonitis are usually evident early. It is rather unusual that a childhood peritonitis will cause adult intestinal complications.

Is it possible to have an attack of jaundice after having received a transfusion? I was given two pints of blood after an automobile accident and

turned yellow four weeks later.

Mr. C. O., California
Dear Mr. O.: This condition you describe is known as homologous serum jaundice, or transfusion jaundice. It is a rare complication due to an infection of the liver, or hepatitis.

It is exceedingly difficult to be sure that a blood donor is free of a virus when he offers his blood. If this happens to be present, hepatitis with yellowish discoloration of the skin may occur any time from a month to four months after receiving a transfusion. Fortunately, this is a rare occurrence. There are now many new methods by which blood that is used for transfusion is sterilized in an effort to kill any virus that is present in the blood of a donor. These methods have been remarkably effective in reducing the frequency of this type of jaundice.

Under what circumstances is it necessary to feed a patient through the veins?

Mrs. K. B., New Jersey
Dear Mrs. B.: Intravenous feeding of fluid and sugar is used mostly when a patient is unable to take feedings by mouth. Frequently after surgery, before the patient has completely reacted from anesthesia, fluid loss is replaced in this way.

SPEAKING OF YOUR HEALTH: The joys of retirement must be planned for early in life.

These columns are designed to relieve your fears about health through a better understanding of your mind and body. All the hopeful new advances in medicine reported here are known to doctors everywhere.

Interior of home was completely gutted and all furnishings destroyed.

Auto Hit Broadside; 3 Hurt

Police Investigate Possible Link With Earlier Car Crash

Erwin William Hoehne, Jr., 20, 824 Ansley drive, St. Joseph, was killed Saturday night when the car in which he was a passenger was struck broadside by another vehicle in Fairplain.

Benton township police today were investigating the possibility that the other car was being pursued at the time from the scene of an earlier hit-run accident several blocks away in Benton Harbor.

Three other persons were injured in the Fairplain crash at Napier avenue and Broadway and were reported variously in poor to fair condition today.

Young Hoehne, an employee of IBM Corp. in South Bend, was the son of Mr. and Mrs. E.W. Hoehne, 824 Ansley drive, St. Joseph township. The senior Hoehne is manager of the Whirlpool Credit Union.

Benton township police said Hoehne was a passenger in a car driven by Barry Stephen Kenreich, 21, of 211 Vail court, St. Joseph, when the crash occurred about 10:30 p.m.

The victim suffered massive internal injuries, officers said, and died from internal bleeding. He was pronounced dead on arrival at Mercy hospital in Benton Harbor.

The fatality was the 10th in Berrien county this year.

Township Officer Roger Peters said the car carrying Hoehne and his companions apparently was westbound on Napier, according to evidence at the scene, when it was hit on the passenger side door. Hoehne was riding in the front passenger seat.

The other car, operated by Lamoyne Young, 42, of Lake street, Bridgman, was believed to have been southbound on Broadway.

The two men at the crash scene told authorities they were pursuing a car southward on Broadway as a result of the hit-run accident minutes earlier.

They said they saw no brake lights from the car as it reached the intersection. Broadway traffic is required to stop before entering Napier. The two men were unable to positively identify the car they were following, officers said, because they were about two blocks from it and because both cars involved in the fatal crash were of about the same brownish color. The chase reached speeds of 70 miles an hour.

(See back page, sec. 1, col. 7)

Credit Union Will Be Closed

The Whirlpool Credit Union in St. Joseph will be closed until 1 p.m. Tuesday so that the staff may attend funeral services in the morning for Erwin W. Hoehne, Jr., son of the credit union's manager, Erwin W. Hoehne, Sr.

The younger Hoehne was killed Saturday night in an auto crash in Fairplain.

According to McCormack, he currently is chairman of the Buchanan Community party organization. He is not married. He is a member of the American Civil Liberties Union, Urban America, and the Academy of Political Science.

McCormack said the failure of the Nixon administration to provide leadership for the nation was a key reason for seeking the office.

"Due to both the president's unwillingness to provide the moral leadership necessary to bring about tolerance and justice to our society, and the intemperate remarks of the vice president, the country has not, as was promised, been brought together," he stated.

McCormack said inflation and the bloodshed in southeast Asia was both continuing despite the administration's promise.

In addition, McCormack said the administration had failed in providing leadership to bring about "quality of life" for all Americans. The issue, he said, encompasses air and water pollution, a decent standard of living, population adjustment and urban decay among others.

McCormack said his education had trained him for service in public office and that his youth and service in the War on Poverty enhanced his chances of election.

ONE DIES IN CRASH: Erwin William Hoehne, 20, of 824 Ansley drive, St. Joseph township, was killed Saturday night in this two-car crash on Napier avenue at Broadway in Fairplain. Benton township officers said the car (right) carrying Hoehne as a

passenger was apparently heading west on Napier when a car southbound on Broadway struck the side of it. Hoehne was riding in the passenger seat. Drivers of both cars and another passenger were injured. (Staff photo)

Legal Aid Has New Attorney

Detroit Area Man Takes Berrien Job

The new staff attorney at Berrien Legal Services Bureau in St. Joseph is John "Jack" Rohm, 42, a native of the Detroit suburb of Pleasant Ridge.

Rohm, married and the father of five, takes over a post vacated by Ronald Marchione, who left in January to enter the army.

Rohm and Director Edward Yampolsky offer legal aid to low-income area residents through funds from the federal Office of Economic Opportunity. Rohm's salary is \$12,000 a year.

The new staff attorney received a bachelor of science degree in foreign trade and grain transportation from the U.S. Merchant Marine academy, Kings Point, on Long Island, then received his law degree from Wayne State university in 1955.

Rohm has spent time as a

Sand Mining Ordinance On Agenda

Grand Mere association backers called for support of a mineral removal ordinance in residential areas that is on the agenda of the Lincoln township board meeting Tuesday at 8 p.m.

The ordinance is up for adoption at the meeting in the township hall, Stevensville, according to Don Galloway of 3795 Peace street, Stevensville.

Galloway, the president of the Grand Mere association, said the proposed ordinance is aimed mostly at sand mining. He added that the association is seeking the strong ordinance to completely block out sand removal in any residential areas.

Because most of Grand Mere is in residential areas an ordinance prohibiting mineral removal could have widespread effect.

Dance Ends Navy Week

A ball Saturday night at the St. Joseph River Yacht club highlighted observance of Naval Reserve week in Michigan. The event also marked the 55th anniversary of the Naval Reserve.

Gov. William Milliken proclaimed March 3-9 as Naval Reserve week. The dance at the Yacht club was sponsored by the unit attached to the Naval Reserve armory in Benton Harbor.

Van Buren Records 1st Road Death

Mattawan Woman Dies Of Injuries

HARTFORD — A Mattawan woman became Van Buren county's first traffic fatality of the year when she died yesterday of injuries received in a one-car accident on March 5.

Mrs. Dorothy Marie Kelly, 56, of 275 Eisenhower drive, Mattawan, died at 5:50 p.m. Sunday at the Water-viet Community hospital where she had been taken for treatment of injuries received in the accident.

Three officers from the state police post at Paw Paw said the accident occurred at 2:50 p.m. on March 5. Troopers said Mrs. Kelly was traveling west on I-94, three-tenths of a mile east of 62nd street near Hartford. Police said the accident occurred after Mrs. Kelly passed another car and lost control of her vehicle which rolled over several times. She was alone in the car when the accident occurred.

The first fatality in Van Buren county in 1969 occurred on Jan. 15. The county ended the year with a total of 32 traffic deaths.

Funeral arrangements for Mrs. Kelly are incomplete at the Thompson funeral home in Paw Paw.

Niles Democrat Seeking Rep. Hutchinson's Job

David H. McCormack, 24, has become the third Berrien county Democrat to announce his candidacy for his party's nomination as Fourth District congressman.

The candidate is the son of Mr. and Mrs. Richard McCormack, 2215 South Red Bud Trail, Niles. The father is vice-president and general counsel for Clark Equipment company, Buchanan.

A former member of the Volunteer in Service to America (VISTA), the candidate said he was entering the race because the Republican administration was failing to meet the nation's

problems. He also said he believed a party primary would enhance chances of the Democratic party winning in November.

William Rutledge, St. Joseph, and Jessie W. Howard, Union Pier, announced earlier that they would seek the Democratic nomination also.

The winner will seek the office now held by Republican Edward Hutchinson, Fenaville, who said he would seek reelection.

McCormack, holder of a master's degree in political science from Northwestern university,

served in VISTA from November, 1968, to December, 1969. He worked in Tallahassee, Georgia, in an office of Economic Opportunity (OEO) position. He was a technical advisor and administrator.

A.C.L.U. MEMBER McCormack, he currently is chairman of the Buchanan Community party organization. He is not married. He is a member of the American Civil Liberties Union, Urban America, and the Academy of Political Science.

McCormack said the failure of the Nixon administration to provide leadership for the nation was a key reason for seeking the office.

"Due to both the president's unwillingness to provide the moral leadership necessary to bring about tolerance and justice to our society, and the intemperate remarks of the vice president, the country has not, as was promised, been brought together," he stated.

McCormack said inflation and the bloodshed in southeast Asia was both continuing despite the administration's promise.

In addition, McCormack said the administration had failed in providing leadership to bring about "quality of life" for all Americans. The issue, he said, encompasses air and water pollution, a decent standard of living, population adjustment and urban decay among others.

McCormack said his education had trained him for service in public office and that his youth and service in the War on Poverty enhanced his chances of election.

Unused BH Schools May Be Sold

Benton Harbor board of education tonight is slated to act on bids for sale of unused M. Pleasant and Chadwick schools.

The board opened bids last month, then tabled them. The high bid for Chadwick school was \$8,100 below an appraised and a single bid for the M. Pleasant property was \$2,900 under appraisal.

The board will hold its regular monthly meeting at 7:30 in senior high library. Other matters on the agenda are a report on the status of a district-wide survey conducted by the Citizens Advisory Committee and various budgetary items.

MULTI-PURPOSE BARRICADES: The signs say "Five Lane" but that's only one reason these barriers were installed on the curbs of the mall at Fairplain Plaza. Pedestrian safety and elimination of traffic congestion are other considerations. Three representatives of Plaza Merchants association ask

cooperation of shoppers in obeying new regulation: Left to right: Glenn Jones, manager of Nobil Shoes, association president; Ted Binz, manager Fox Jewellers, and Dave Goldbaum, clothing store owner. They said regular Plaza lot provides 3,000 parking spaces for convenience of shoppers. (Staff photo)

Test Your Knowledge Of Living Textbook

How well are you reading the living textbook?

It enters your home daily with pertinent information on government, foreign affairs, geography and science. These are just a few of the topics covered by your daily newspaper which gathers information from the next block and around the world to keep you informed.

Students and parents alike can make use of this educational opportunity by regularly reading the newspaper. We even have a weekly quiz to help you check your memory on current events. The News Quiz is found today on page 15.

It is part of the visual education program sponsored by this newspaper which also provides news filmstrips to participating area schools.

ST. JOSEPH, MICH., SATURDAY, MARCH 7, 1970

SOUTH HAVEN WINS STATE WRESTLING CROWN

Success goes to those who try harder . . . just ask South Haven's state Class B wrestling champions.

Coach Gary Steudle's Rams finished No. 2 in conference, district and regional tournament, but showed their championship character when No. 1 was on the line in the state finals Saturday night at Okemos high school.

South Haven became the first southwestern Michigan school ever to win a state mat crown when all three of its survivors from qualifying tournaments the previous two weekends placed among the top three Saturday.

Roger West led the Rams with the area's only individual crown at 185 pounds. Teammates Elliott Evans and Tom Thaler each placed third.

West lived up to his No. 1 seed by winning four straight matches on decisions. The junior standout ended the campaign with a 32-1 record, including 20 pins. The lone loss was by default when his opponent suffered an injury.

West opened state competition with a 14-2 victory over Alma's Dan Martin and followed with a 3-0 win over Lansing O'Rafferty's Tim Patterson and a 6-3 decision over Mason's Chris

Cochran.

In the championship match, West fell behind 1-3 to Chelsea's Karsen Kargel in the second round. But in the third and final round the Ram star scored a two-point reversal for a 3-2 victory.

West had to win for South Haven to clinch the title. And even with his victory, the Rams shaded defending state champion Madison Heights by just one point. Other contenders were also tightly bunched in some of the keenest competition in state tournament history.

South Haven collected 28 points, Madison Heights 27,

Dexter 25, Fruitport 24, Saline 23, Chelsea 23, Lansing Gabriel 23, Muskegon Catholic Central 22, Freemont 21, Flint Bentley 20 and Niles Brandywine 19.

"It was wild," commented Steudle. "It was the tightest match I can remember. It could have gone to just about any team in the finals."

South Haven went to state as a strike darkhorse with just three wrestlers, and the Ram outlook deteriorated when defending state champion and No. 1 seed Elliott Evans lost an overtime referee's decision in the semifinals to Flint Bentley's Bill Burger, a sophomore and

the No. 4 seed at 107 pounds.

But Evans bounced back from the heart-breaking setback to finish third while earning seven team points. The stellar Ram senior ended his prep career with a 114-8 record, including a 32-2 mark this season.

It was Thaler, a junior and unseeded, who came through far beyond expectations with a third at 123 pounds worth eight team points for South Haven.

"When Elliott went by the boards, Thaler picked up the slack and did the job," praised the Ram coach. Thaler, who suffered nine losses this season, whipped Durand's Randy Dougherty 4-1 in the consolation

final.

Other pleasant surprises among the southwestern Michigan contingent of Class B wrestlers were Dowagiac's 98-pound Larry Townsend and Brandywine's 175-pound Russ Benison.

Townsend, just a sophomore and unseeded, earned a fourth place while Benison, a junior and unseeded, also finished fourth. The Bobcat matman was an overtime loser in the consolation finals.

Brandywine, coached by former Benton Harbor high school star Don Arend, also earned a second place at 115 pounds with No. 2 seeded Mike Bridges.

Niles' Mark Hempel was sec-

ond at 107 pounds in Class A, but no area wrestlers placed in the Class C-D meet. Southwestern Michigan had a total of seven placers and one champion in state competition Saturday, as compared to seven placers and three champions a year ago.

But the decline of individual champions was more than made up for with South Haven's state crown.

Steudle, last year's coach of the year when the Rams finished second in the state, has brought South Haven all the way to the top in just five seasons. His squads have been

undefeated in 32 straight dual matches over the past two campaigns.

And South Haven sports fans showed their appreciation for the effort put out by Steudle and his Ram wrestlers. They greeted their team outside of town when it returned home Sunday and provided a fire engine ride through town that has become a tradition for high school athletic champions.

A public assembly at the L. C. Mohr high school after the ride bestowed further honors on the team. And more recognition came today in a 2 p.m. student assembly.

Hail to the champions!

Unbeaten Beavers 'Eclipse' Lakers

Late Rally Provides
3rd Title In Row

By JOHN VANDEN HEEDER
Staff Sports Writer

BERRIEN SPRINGS — Unbeaten Eau Claire put a total eclipse on Lake Michigan Catholic here Saturday and came out shining with a third straight Class C district championship.

Coach Jon Frye's Beavers blacked the Lakers out of the tournament picture with a 76-64 triumph which sends them back to the Battle Creek regional this week.

The most brilliant Eau Claire star of the event was Charles Osby. While Lake Michigan Catholic's defense did a superb job on 6-8 Red Arrow scoring champion Ray Bowerman, Osby bombed 28 points through the nets with his long-range artillery.

But the dark shadows of defeat didn't actually creep over the Lakers until the final period.

Lake Michigan Catholic trailed 18-11 after the first period, but grabbed leads of 35-33 at halftime and 50-48 after three quarters of action. The lead exchanged hands nine times in the middle two quarters, with the largest Laker lead at 33-28.

The lights went out for the Lakers in the fourth period when Eau Claire, sparked by guard Robert Grandberry's 10 points, posted a deciding 28 to 13 scoring edge.

"Don't ask me what happened in the fourth quarter," commented dejected Laker coach Sam Skarich. "I do know we missed some shots we should have made."

Skarich's suspicions were quickly confirmed when shot

charts revealed Lake Michigan hit only 4 of 15 field goal attempts in the period, while Eau Claire was meshing 9 of 13 from the floor and converting 10 of 12 free throws.

Eau Claire took the lead for good at 52-51 on Lee LaVany's 15-footer from the free throw area with 7:10 left in the game, but the Beavers had only a 60-57 advantage with 3:30 left on the clock.

At this point Frye called a time out to set the Beavers up in a stall offense. His squad worked it to perfection by putting 16 points on the board the rest of the way, including 10 on free throws as the desperate Lakers were forced to foul.

"We work on it three or four nights each week," explained Frye on the stall. "We haven't had to use it before, but we knew we had it when needed."

Lake Michigan's fourth quarter collapse helped give Eau Claire an edge in both shooting departments.

The Beavers hit on 28 of 66 field goals (42 per cent) while the Lakers posted a 22 for 58 mark (38 per cent). At the free

throw lines, Eau Claire was 20 for 25 (80 per cent) and Lake Michigan Catholic 20 for 27 (74 per cent). Turnovers saw the Lakers with 21 and the Beavers 17.

Eau Claire also had a 44 to 36 rebounding edge, but Lake Michigan Catholic's 6-4 junior Dave DeLeeuw outrebounded Bowerman 17 to 16. Osby added nine more to the Beaver cause.

Trailing Osby in Eau Claire's scoring column were Grandberry and Bowerman with 17 and 13, respectively. Bowerman, who collected 65 in two previous games against the Lakers, was held to his lowest total since the opening game of the season.

"They've just got too much," added Skarich. "They've got the shooters. When Osby slacked off, Grandberry picked it up."

John Bruntall was again high for the Lakers with 21, and Jeff Neumann contributed 14. But Lake Michigan's second lead ing scorer for the season, guard Ron Mandarino, was held to six.

"It was a tough job on their guards," continued Frye. "Our game plan was to shut off their guards." The Beavers opened in a combination defense with their guards playing their Laker opposites man-to-man while the front line was in a zone. In the second half, Eau Claire shifted into a match up 2-3 zone.

The defeat left Lake Michigan Catholic with a fine 15-4 record for its very first season. Laker losses to the Beavers during the regular season were by 67-65 and 84-81 margins.

Eau Claire, ranked No. 2 in the state in the final Associated Press poll, has now won 20 straight. The Beavers will face Battle Creek St. Philip, which carried a 17-3 record, at 7:30 p.m. Wednesday.

Saturday's championship game was another sellout. Fans were lined up at 1 p.m. for the last remaining 100 tickets, and the gym was jammed long before the teams took the floor for pre-game warmups.

PERFECT BLOCK: Eau Claire's 6-8 Ray Bowerman (54) reaches out long arm to make perfect block on attempted shot by Lake Michigan Catholic's Matt McGee during Class C district championship game Saturday night at Berrien Springs. Others in photo are Dennis Prillwitz (22), Alan Chisek (30) and Dave DeLeeuw (43). Bowerman was held to only 13 points but blocked 11 shots as undefeated Beavers won, 76-64. (Redman & Ames photo)

Eau Claire, Bangor Lone Opening Favorites

Odds Higher For Area Regional Teams

The odds are stacked slightly higher against southwestern Michigan in regional basketball competition this year.

Just one year ago, nine area teams ventured forth into regional play in four classes and all nine came home on their shields after failing to survive the second stage of the state high school tournament.

This year, because of changes at the district level, only seven area teams qualified for regional competition, and most of them will be underdogs in their first game this week.

As in recent years, the Class A and B regionals will be held at Western Michigan University's spacious Read Fieldhouse

with the Class C regional at Battle Creek Central and the Class D regional at Portage Central.

Representing southwestern Michigan at these sites will be Benton Harbor in Class A, South Haven and Buchanan in Class B, Eau Claire, Bangor and Gobles in Class C and Gallien and Martin in Class D.

Of these seven, only Eau Claire and Bangor will rank as solid favorites in their opening games, with Benton Harbor a tossup choice against Lansing Waverly in the 8:30 nightcap of Wednesday's doubleheader at Western.

The area lineup in Classes A and C is almost identical to last

year, with Benton Harbor, Eau Claire and Bangor all repeat district champions while Gobles replaces Fennville as the Hamilton district champ.

Classes B and D, however, are both down from three to

Two More Color TV Sets Stolen

Berrien Deputy Douglas Fishburn said two more color television sets, valued at \$370 each, were stolen this weekend from the Bella Villa motel, 4220 Red Arrow highway, Stevensville.

Motel Manager Ted Wozniak reported the thefts early Sunday. Earlier last week he had reported that two other color televisions were taken from rooms at the motel, deputies said.

Sheriff's deputies also said the home of Mrs. Marion Atwill, North Waterford road, Waterford township, was burglarized. Reported missing were a television set and grandfather clock.

Benton township reported a television, 12 gauge shotgun and transistor radio were stolen from the home of Mr. and Mrs. Ken DePriest, Napier avenue, Mrs. DePriest reported the burglary early Sunday.

San Blanks of 1520 Red Arrow highway, Benton township, said on tape player was stolen when he left it at 375 North Winans street, and Royal Watson of 396 North McCord street, Benton Harbor, said a tape player and tapes were stolen from his car this weekend.

LEGAL NOTICES

Hearing on amendment to Colonia Township Zoning Ordinance.

Notice is hereby given that the zoning board of Colonia Township will meet at the Colonia Township Hall in Colonia Township, Berrien County, Michigan on Monday March 16, 1970 at 8:00 O'Clock in the evening of said day for the purpose of determining if the zoning classification of the following described property:

The Ingham School Property part of the S E 1/4 of section 5, Township 3 South, Range 17 West, described as follows:

Commencing at the S E corner of said section 5, thence N. 8 Rods, thence W. 25 rods, thence S. 8 Rods, to center of highway, thence E. 25 rods to the place of beginning, being in Colonia Township, Berrien County, Michigan.

Is to be rezoned for Industrial use.

At the above time and place all parties interested will be given an opportunity to be heard. Previous to that time the text of said petition and map of said lands will be available for public examination at the Colonia Township Hall, Berrien County, Michigan on Monday, March 2, 1970, from 7:30 to 9:30 in the evening.

LOST—Brown jacket, white shirt, black collar, no tags. Reward, \$25.00.

Police Check 3 Reports Of Larcenies
SOUTH HAVEN — Area police investigated three larceny reports over the weekend. Louis Bellon, Kalamazoo, told city police that two topicals, valued at \$80, a \$300 slide projector, and a case of soft drinks, were stolen from the back seat of his car while it was parked in the L.C. Mohr high school lot last Wednesday. Frank Severance, 409 North Center street, Bangor, reported the theft of a coin collection and a ring, valued at \$50, sometime Friday or Saturday, from his home. State police from South Haven investigated.

Gerald Oveshnel, 774 Lee street, South Haven, reported the larceny of meat from a freezer, valued at \$80, sometime Sunday.
